Quality Inspections, Audits, Surveys and Trainings

**Quality**  
**Integrity**  
**Impartiality**

4531

AN ISO 9001:2015 ACCREDITED TYPE "A" INSPECTION BODY

**The ideas of control and improvement are often confused with one another. That is because quality control and quality improvement are inseparable.**

A pair of hands, rendered in a light gray, almost white, color, are shown from the side, cupping a small green plant. The plant has three leaves and is growing out of a mound of dark, textured soil. The background is plain white.

# Chairman's Message

It gives me immense pleasure to pen this foreword cum introductory message for Eram International.

Quality is a fundamental requirement for growth, sustenance and innovation in any industry. More so, in the Oil and Gas, Petrochemical Industry where customers want to ensure one hundred percent quality that matches or exceeds their expectations. It is in this context, the role of Eram International's services acquire tremendous significance.

Eram International's ability to provide services with unwavering focus on Quality is guaranteed to minimize risks to our clients. Our Quality Management System is based on international standards and proven quality specifications. I am sure this profile will give you an insight into our expertise and services.

Best Regards,

**Chairman & Managing Director**

# The Company

ERAM International is a UKAS accredited ISO 17020: 2012 type "A" inspection body and one of the leading companies providing a variety of quality services effectively for more than ten years.

ERAM International was established with a vision to provide technical support services for major projects executed in the Middle East for industry majors like Saudi Aramco, SABIC, Qatar Petroleum, RAS GAS, Qatar Gas, Kuwait Oil Company, Bahrain Petroleum, ADNCO, PDO etc. Subsequently, ERAM International became involved in the provision of technical inspections, certification, audits and training services for various industries.

ERAM International employs more than 850 specialized personnel in various countries, operating all over Middle East, Europe, Americas and Asia.

Our broad technical capabilities enable us to serve various industries like the Oil and Gas, Chemical and Petrochemical, Power, Construction, Offshore and Pipelines, Railroad, Automotive, Health and Hygiene and IT sector.

# Our **Core Competencies**

## **Inspection Services**

We provide comprehensive coverage in every aspect of vendor inspection. Our technical specialists are available wherever and whenever you need them. Our areas of expertise include mechanical, electrical, instrumentation, control systems and coatings.

## **Certifications**

We assess and certify management systems of companies to international standards, national standards, guidelines and codes of practices as appropriate. Certification can play a vital role in industry innovation and enhance development.

## **Supplier Audits**

We audit and survey new and existing suppliers being considered for new projects. Our certified auditors carry out detailed on-site assessments necessary to meet the client's requirements. Our audits consist of verifying quality, safety, security and supply chain.

## **Cargo Inspection**

We ensure that appropriate storage and handling methods are employed during loading/unloading to protect your financial interests. We also conduct inspection on FMCG, products of high value, and sorting of quality products from those with defects.

## **Training**

We provide structured educational and training services intended to improve the knowledge and capabilities of individuals and companies.

# Areas of **Expertise**

## **INSPECTION SERVICES**

The bulk of our inspection activities involve inspection services provided for equipment, machinery, and manufactured items for various process industries.

The services provided include inspections for mechanical equipments and components, static and rotating machinery, electrical and instrumentation, coatings, civil, on-stream, shut-down and turn-around project inspection and asset integrity management.

## **CERTIFICATION SERVICES**

We assess and certify management systems to international standards like ISO 9001, 14001, 22000, 27001 and OHSAS 18001. Certification demonstrates a company's compliance to their chosen standards. The benefits of management system certification for your organization are endless.

## **SUPPLIER AUDIT SERVICES**

Audits are frequently performed to ensure that supplier's systems, practices, and procedures are defined, documented, controlled and periodically assessed for effectiveness and compliance. ERAM International provides programs that offer a modular approach to the service allowing our clients to target their assessment on a specific function or operation. Audits are conducted by qualified and certified professionals to provide critical information needed by the client to evaluate the suppliers.

### **CARGO INSPECTION SERVICES**

One of the main things buyers are looking for, is that their consignment arrives in the condition as ordered. We assure that the cargo in question meets all of the specifications as initially agreed upon by buyer and seller. Our pre-shipment inspection (PSI) offer a solution that ensures the cargo leaves and arrives in good order.

### **TRAINING SERVICES**

Training services, seminars and workshops are targeted toward quality, management, technical, engineering, safety, health, environment, and other professions.

ERAM International provides an extensive range of training courses relevant to your business needs. We have a team of professional trainers with vast experience and knowledge in various fields. Our focus is to create enticing learning experiences that will inspire change and development. We constantly monitor and evaluate our training programs to ensure that they are up to date and continually improving. We also design courses with specific customer and industry requirements both in-house and open courses. Our interactive and effective training programs will enable you to achieve your business goals successfully.

# Company
